FAX (254) 578-1836

### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Navarro Mills WSC has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2016 we did not monitor or test for Lead & Copper and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Lead & Copper, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples will be taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Lead & Copper tap water sampling	20 samples Yearly	20	June 1 – Sept 30 2016	September 2016

What is being done?

We are working to correct the problem. For more information, please contact Clint Padilla at 254-578-1618 or 1160 FM 667, Purdon, TX 76679.

Corrective actions:

**Navarro Mills WSC has completed the yearly Lead & Copper monitoring for 2016 as required, however; due to an address discrepancy at the laboratory, we are required to send this notice. The samples were taken, and the results have been mailed to the customers who took the samples.**

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Navarro Mills Water Supply Corporation. Public Water System Number: TX1752004

Date Distributed: November 30, 2016
